

28th February 2019

Dear Mr Ashcroft,

In response to your Clarification Note that was sent on the 18th February the following question was asked of East Hampshire District Council:

Question for the District Council Policy RNP20 Is there any timescale for the determination of the current planning application for residential development on this site (30024/11)?

The case officer for this application is Stephen Wiltshire, the Development Management Team Leader. His response was as follows:

“The deadline for determination of application 30024/11 was 28th January 2019. However, I am still awaiting the further information relating to drainage and also comments from the Highway Authority. The date of determination is uncertain depending on the resolution of drainage/highway matters.”

If you require any further information, please contact EHDC.

Kind regards,

Victoria Potts
Manager – Planning Policy
