

THIS DRAWING IS TO BE USED ONLY FOR THE PURPOSE OF ISSUE THAT IT WAS ISSUED FOR AND IS SUBJECT TO AMENDMENT

LEGEND

- East Hampshire District Boundary
- South Downs National Park
- Town
- Groundwater Flood Record (EA)
- Main Rivers
- Limited potential for groundwater flooding to occur
- Potential for groundwater flooding of property situated below ground level
- Potential for groundwater flooding to occur at surface

NOTES

- The 1:50,000 scale digital map data is generalised and the geological interpretation should only be used as a guide to the geology at a local level, not as a site specific geological plan based on detailed site investigations.
- This map is intended to provide a strategic overview of susceptibility to groundwater flooding and should not be used to assess flood risk for individual properties.
- Absence of values for any grid square means that no part of that square is identified as being susceptible to groundwater emergence.
- Point data represents groundwater flood incidents recorded by the Environment Agency and do not represent an exhaustive record.
