PROPOSAL:	T3 weeping willow located at the rear left corner of garden overhanging 12 Rakemakers and Maypeys. The Weeping willow has severely declined over winter with less than 10% leaf coverage as of 16th May 2023. What leaf has appeared is low down on the tree from where a limb was knocked off by Cypress tree in Maypeys during storm Eunice in February 2022. Request to immediately remove/dismantle weeping willow via 5 day application whilst it is safe to climb the tree to dismantle in manageable sections. If left longer, the tree is likely to be dangerous to climb and dismantle. There is debris already falling from the weeping willow onto the surrounding area. Our garden currently has ornamental cherry tree which would be my preference to match in with existing garden foliage as the proposed replacement tree. (TPO)
